

Don't you hate people who repeat things over and over again as if saying it once isn't enough and so they just keep going on and on and on about the same thing not even changing the subject and sometimes not even changing the words but just carrying on over and over again about the same thing as if you didn't hear them the first or second or maybe even the third time they said it and so they feel they have to tell you over and over again until you want to scream? I mean, don't you hate that? Don't you? I know I do, don't you?
